SUMMARY

Deeply passionate about leveraging **Artificial Intelligence (AI)** and **data science** to tackle complex real-world challenges and drive transformative innovation, I possess a strong foundation in **data science, data analytics, and web development**. Committed to continuous learning, I am eager to collaborate with dynamic teams and contribute to cutting-edge **AI-driven projects** that push technological boundaries.

EDUCATION

Knowledge Institute Of Technology

B.Tech Artificial Intelligence and Data Science

2022 – 2026

CGPA - 8.25 (Sem 5)

SKILLS

Programming Languages:

Python, Java

AI Tools & Frameworks:

YOLOv8, OCR, TensorFlow, Scikit-learn,

OpenCV, NumPy, Pandas, Seaborn

Productivity & Analytics Tools

Jupyter Notebook, Power BI

Web Technologies:

HTML, CSS, JavaScript, React.js

Database:

MySQL

Version Control:

Git, GitHub

CERTIFICATIONS

- Python for Data Science IBM (**Coursera**)
- Neural Networks and DL (**Coursera**)
- Machine Learning (**GUVI**)
- Gen AI and Copilots (**Microsoft**)
- Cloud Foundation (**AWS Academy**)
- JavaScript Essentials 1&2 (**Cisco Academy**)

PROJECTS

Tejus (Applied for Patent) : (2025)

- Developed **AI-powered accident detection system** using surveillance for real-time incident identification.
- Integrated **GPS-based auto-reporting and SMS alerts** for reliable emergency notifications in low-network areas.
- Designed scalable **AI solutions for rapid emergency response** coordination.

AutoEyeAI: (2025)

- Developed a real-time traffic violation detection system using **YOLOv8** and **OCR** for vehicle and license plate recognition.
- Optimized traffic signals based on **vehicle density** and prioritized **emergency vehicles** for faster signal adjustments.
- Ensured accurate **violation detection** and **dynamic traffic flow** improvements.

Precog : (2024)

- Developed a **predictive system** using **Python** and **machine learning algorithms** to forecast building collapses caused by natural or man-made disasters.
- **Implemented real-time alerts** to automate calls and responsive webpage for immediate notifications to residents.
- Utilized **IoT sensors, data processing** with **NumPy** and **Pandas**, and trained models for accurate real-time collapse detection and early warnings.

KNOWN LANGUAGES

- Tamil
- English

HOBBIES

- Sketching
- Creative Designing
- Bibliophilia
- Self-Evaluation & Mindset Exploration

ACHIEVEMENTS & EVENTS

- **HackXelerators Award** - HackXelerate 2025, KPR College (**Tejus**) – Awarded **₹2000** cash prize.
- **Best Project Award** - Vihansa Hackathon 2025, SRIT College (**AutoEyeAi**) – Awarded **₹3000** cash prize.
- **Best Paper Award** - DigiTechCON'25 Conference, Salem (**Tejus**).
- Finalist - National Level Hackathon Advaya 2025, BGS College (MedSync).
- Organized various district **Rotaract** events as **Treasurer**, Rotaract Club of Salem Metropolis (2024–2025).
- Organized **Google DevFest** event 2024 ,Salem.
- Ranked among **Top 10 teams** - iStart Hackathon 2024, KIOT (**Precog**).

PROFESSIONAL EXPERIENCE

Machine Learning Intern

Corizo | 2023

- Developed an **AI** tool using **Random Forest** to analyze student learning styles.
- Built a **Streamlit app** for personalized study plans.
- Handled data generation, model training, and real-time predictions.
- Tech stack: **Python, pandas, scikit-learn, Streamlit**.

Data Science Intern

MainFlow | 2024

- Performed **EDA** on IPL 2023 and heart disease datasets, including **cleaning and outlier detection**.
- Created visualizations using **Matplotlib and Seaborn**.
- Built and **evaluated ML models** for breast cancer detection.

Web Development Intern

Teachnook | 2024

- Designed a **responsive** commercial web page with **product categories and CTAs**.
- Developed dynamic product section using **React.js** with add-to-cart functionality.
- Enhanced user experience through an engaging and **interactive UI**.
